NOTES:

- On Jan. 8, 2001, dynamic access to the accident data repository was implemented. Static files are no longer available.
- On Oct. 2, 2001, minor cases which do not fall under the definition of "accident" or "incident" were removed from the database;
these entries were previously identified with "SA" in the accident number.
- On Sept. 18, 2002, data from 1962-1982 were added to the aviation accident information. The format and type of data contained in
the earlier briefs may differ from later reports.
- ** - Do not use these fields as selection parameters if your date range includes pre-1982 dates, as they did not exist prior to 1982 and
their use may falsely limit the data returned.
