

Ref. T1/2.02

FSI.3/Circ.2
30 January 2001

CASUALTY STATISTICS AND INVESTIGATIONS

Very serious and serious casualties for the year 1999

1 The Sub-Committee on Flag State Implementation, at its eighth session (24 to 28 January 2001), agreed that the lists of very serious and serious casualties to be investigated as soon as identified, using the data received from Rescue Co-ordination Centres (RCCs) in the form of situation reports (SITREPs) and other sources, should be prepared in the form of FSI circulars and made available in an electronic format on the IMO BBS/Secure Internet (FSI 8/19, paragraph 11.17).

2 The Maritime Safety Committee at its seventy-first session (19 to 28 May 1999) and the Marine Environment Protection Committee at its forty-third session (28 June to 2 July 1999) endorsed the Sub-Committee's proposal that data on casualties and deficiencies should be made available in an electronic format on the IMO Secure Internet, noting that the data would be accessible to Member Governments only via login and password and would not be open to the general public (MSC 71/23, paragraph 10.3 and MEPC 43/21, paragraph 8.6).

3 Attached is information on casualties and other related information, as follows:

- .1 list of selected "very serious" and "serious casualties" for the year 1999 (annex 1);
- .2 statistics on "very serious" and "serious casualties", which occurred during the period 1995 to 1999 (annex 2); and
- .3 maps showing the location of casualties involving collisions, contacts, strandings, groundings and severe pollution for the year 1999 (annex 3).

4 The information contained in the electronic version of the circular will be updated when additional information becomes available and is recorded in IMO's relevant databases.

5 Member Governments are invited to submit data as indicated below:

Information to be sent in accordance with the type of casualty	Very serious casualties	Serious casualties	Less serious casualties	Marine incidents
Annex 1 of the reporting format annexed to MSC/Circ.953 - MEPC/Circ.372	To be provided within 6 months after the casualty in all cases	To be provided within 6 months after the casualty in all cases	May be provided if there are important lessons to be learned	May be provided if there are important lessons to be learned
Annexes 2 and 3 of the reporting format annexed to MSC/Circ.953 - MEPC/Circ.372, as well as other relevant annexes	To be provided at the end of the investigation in all cases	To be provided at the end of the investigation in all cases	May be provided if there are important lessons to be learned	May be provided if there are important lessons to be learned
Full investigation report	To be provided at the end of the investigation in all cases	May be provided if there are important lessons to be learned	May be provided if there are important lessons to be learned	May be provided if there are important lessons to be learned

ANNEX 1

List of very serious and serious casualties which occurred in 1999

Updated on:

02 February 2001
